

# Following up with employers after events and interviews

If you went to the Diversity Career Fair last week you had the opportunity to meet with over 130 employers. If you met with employers you are hoping to work for, it's time to follow up with them. If you didn't receive business cards or get names, you can research company representatives on LinkedIn,

including recruiters and hiring personnel. A simple follow-up thank you note keeps you in the minds of recruiters and could lead to the consideration you were hoping for. You should also follow up after interviews as well. This is a courtesy that helps you stand out in a positive manner.

## Advice from the Experts
