

The Weekly Spark

AUGUST 27th - Week 1

WELCOME TO FALL 2018!

Welcome to Fall Semester 2018 UIC College of Engineering Students! We have an exciting year ahead: career fairs, on-campus events with companies, tours, hackathons, tech talks, and more! However, our most exciting news for 2018-2019 is that the Engineering Career Center is getting renovated! We cannot wait to debut our new office space to you!

To help stay on top of everything going on careers-wise in the College of Engineering – we hope you enjoy our new fresh look for the weekly newsletter The Weekly Spark! It will contain everything you need to know for the week, things to keep on your radar for the following week, newly posted internships, co-ops, and full-time jobs, career tips and tricks, and all the fun surprises along the way.

For this week: mark your calendar for events that look good to you (see below), and work on creating a resume (or updating your current one). Check out the Resume Reviews flyer for dates and times. Get ready: the Fall Engineering & Computer Science Career Fair is right around the corner!

Enjoy your first week of classes; The Weekly Spark will be back next week!
