

The Spark

September 4th – Week 2

GET INVOLVED ON CAMPUS!

Student organizations are an easy and fun way to get more involved with your campus community, build leadership skills, find cool engineering projects to work on outside of class that can help build your resume. Consider attending a few meetings of organizations that sound interesting to you. UIC has many organizations based on different majors, industries, cultural identities, and hobbies.

Attend the 2018 Involvement Fair to learn more about student orgs! Talk to as many orgs as you can to find a group that's a good fit for you!

Browse the list of more than 25 [Engineering student organizations](#)

Also check out the 200+ [General student groups](#) that UIC campus has to offer!
