April 11, 2022

Thanks for a great year!

Hey Engineering & CS students!

The semester is winding down. Since you all will be focused on exams and end-of-year projects for the next few weeks, this will be the last issue of The Spark until Fall 2022.

The ECC is open year-round, so you will still have access to career advising (by appointment only) during the summer! The best way to meet with us during the summer is by scheduling an appointment on Handshake, since we will not have drop-in hours from May 8 - August 19.

**Graduating seniors:** you still have access to all that the ECC has to offer for up to three years after graduation. This includes career fairs, events, advising appointments, Handshake, and more!

Good luck on finals!

Sincerely,

Th ECC team
It's okay if you didn't get a summer internship yet. You can still use the summer to build your engineering skills!

1. Take a free online course

![Coursera Logo]

2. Complete a Microinternship

![Linked Learning Logo]

3. Volunteer in your community
4. Ask your professor if they need extra help in their research lab

5. Grow your network by doing informational interviews with the ECC's Networking guide!

View the ECC guide

6. Keep applying for internships, part-time, and freelance gigs!

Are you a computing student with a disability?

Looking for an internship? Want to connect with peers and mentors with disabilities? AccessComputing can help you do that.
AccessComputing provides mentoring and funding for career development activities for students with disabilities in computing-related fields. This includes mentoring, tutoring, conferences, and research internships.

To apply, you will be required to self-report your disability, but you will not be required to provide medical documentation of your disability.

Apply to AccessComputing
